## New token

# New token

Description :

Scope :

Album :

Access permission

Expiration date

Start date

Create

Cancel

First, the user select the scope and the next comboBox change between Album, series or study.

The next checkBox use autocomplete.

Start date an expiration date are optional

## Other

The user can use drag and drop for importing series in her Inbox or in an album. When import in an album, ask if the user want to import inside her inbox too.

Drag and drop inside the application (inbox <=> album)

When a user do a search in her Inbox, the search is inside the main URL (like in Google)

Internationalization (i18n)

A login page

A 404 page

URL :
